To whom it may concern,

The WISE WUS Ethics Order # 90 has never been issued nor sent out to any orgs. The issue was to be sent out if no ethics change occurred, Ruth's partner did sign up with WISE and both showed ethics change at the time.

Dear Ruth,

I received your Petition dated 25 Sept 2002. In the receipt of this I have the following to say. As you are not an owner of Georgettes General Store LLC, you are not required to become a WISE member as you do not own a business. As for the violation of the SPD that you referred to in your Petition, this was not your responsibility to handle. Only an owner is to handle any violations and sign up as a member, if the employee wishes to help handle the situation, they can, but they themselves are not in violation of the above SPD. As you are not an owner of Georgettes General Store, your were not in violation of the SPD.
