RUTH LORENZEN

I just received this communication from Ruth Lorenzen which is not appropriate for a Scientologist. That communication sounds to me like she is disconnecting from the group. Not sure what her real intentions are though.

This is true

Dear Louise Cournoyer, ←

I am sorry if you were upset by my requesting that you stop calling me for an update or weekly report. I am not, and never was, a staff member of Tampa Org and was never "required" to report to you or the Church of Scientology of Tampa. The VM activity is solely a *volunteer* activity.

**Volunteer:** n. 1 a person who chooses freely to do or offer to do something.  
vt. to freely choose to offer or give without being asked or obliged  
Etymology [earlier *voluntier* < obsolete French *voluntaire* < Latin *voluntarius*, voluntary < *voluntas*, free will < Latin *volo*, I wish, of *velle*, to be willing]

I'm sorry I did not officially and in writing tell the in-charge that I had discontinued my volunteer participation before you called me, and so you became a receipt-point of that notification. I have now officially asked off the VM program in writing to Judy Fagerman VM I/C so that this will not occur in the future.

It is, of course, my *right* per policy written by L. Ron Hubbard to discontinue participation or to stop communicating.

Sincerely,

Ruth Lorenzen
